ABOUT US

Deswik is a global mining technology leader that delivers efficiency-focused solutions and industrial mathematics to all sectors of the mining industry. With 18 offices across 12 countries, we strive to empower our customers to deliver measurable value through technology.

CONSULTING

Our consultants' significant operational and project-based experience enables them to provide training, software implementation, and general mine planning consulting services. Using the latest software technology, we ensure our project outputs are delivered timely and accurately.

SOFTWARE

Our integrated solutions empower mining professionals to work smarter and faster through seamless data flow. By giving them the tools and resources to engineer better plans and examine more scenarios, they can improve efficiency and make informed decisions on mining investments.
